💼 Experience

📅 12/2020 – PRESENT ⚲ KAUNAS, LITHUANIA
Software developer
React Seals
Developing core features and supporting a cross-platform OTT media streaming application template and product.

Mainly focused on front-end development using React, React Native, Next.js, Firebase, Apollo/GraphQL.

From time to time did back-end work like creating RESTful API endpoints and integrating 3rd party services onto the system using Node.js and Strapi.

📅 07/2020 – 11/2020 ⚲ KAUNAS, LITHUANIA
Full stack developer Internship
React Seals
Cross platform Full-stack development for Web, Android, iOS, Tizen, webOS, AndroidTV, TvOS using Javascript, React, Next.js, Java, React-Native.

Main focus was on building clean and reusable UI components, that support all of said platforms and developing a server API with Node.js and Express.js.
