💼 Projects/Experience

📅 07/2020 – PRESENT 📍 KAUNAS, LITHUANIA

Full stack developer Internship
React Seals

React and React Native academy, where we focused on creating and deploying high-end app solutions for most popular platforms: mobiles, websites, set-top boxes and media players, game consoles and smart TVs.

Topics covered and put to practice:
- Git version control workflow
- Webpack configuration for web apps
- NodeJS/ExpressJS, NoSQL database basics
- Performance optimization in JavaScript
- GraphQL/REST overview
- ReactJS overview and best practices
- Rendering on the web: SSR vs Static Rendering, CSR, data rehydration
- React Native basics
- Native modules development using java
- Native module integration in React Native app

End result to be published and deployed soon!

📍 HOME

LT IT Job market statistics

This website was made to research the trends of technologies/tools mentioned in IT job adverts. Application includes few scraper scripts which are used to get the relevant data from Lithuanian job advertising websites, Charts to represent the data on front-end and etc.

You can see it live on:
https://ltitjobstatistics.herokuapp.com

💼 Projects/Experience

📍 HOME

TimeBoxIt

This project is something like google Calendar, main function is planning your time and having the ability to view it in different calendar views. Stack used is similar to the previous one (MERN stack), includes:
- Authentication using JWT
- Front-end implementation using React and Material-UI
- Back-end implementation using Express, GraphQL, Mongoose
- MongoDB database

You can see it live on:
https://timeboxapp.herokuapp.com/

🎓 Education

📅 09/2017 – PRESENT 📍 KAUNAS, LITHUANIA

Software Engineering
Kaunas University of Technology

Currently finishing my final year.

📅 09/2019 – 01/2020
📍 BRNO, CZECH REPUBLIC

Software Engineering
Brno University Of Technology

Participated in Erasmus+ Student exchange programme and spent a semester studying abroad in Czech Republic. All of the courses were in English.

Skills

ⓘ **WEBSITE DEVELOPMENT**
JavaScript
React.js
NodeJS
ExpressJS
MySQL/NoSQL
Databases
HTML5
CSS3

ⓘ **OTHER SKILLS**
React Native
GIT version control
Agile
C# programming
Asp.net framework
MVC, MVVM and other
design patterns
Object-Oriented
Programming (OOP)

ⓘ **LANGUAGES**

English	**C1**
Lithuanian	**Native**
